SUBJ: Groundwater Resampling Report (September 2003)
Brown's Dump Site
EPA I.D. Number: FLD 980 847 016

Dear Ms. Tunsill:

Enclosed with this letter, please find revision pages for the Groundwater Resampling Report previously sent to you on March 24, 2003. In summary, EPA concludes that the groundwater sampling performed to date indicates a lack of significant groundwater impact from the ash contamination, and the data contained in this report will be considered when drafting the groundwater portion of the Record of Decision (ROD).

If you have any questions on the report or other aspects of the project, please feel free to call me at (404) 562-8938 (toll free - 1 800 435-9234).

Sincerely,

Wesley S. Hardegree

Wesley S. Hardegree
